

TECHNICAL DATA

gabbiani pt95
automatic horizontal beam saws

gabbiani p95

Cutting length	mm	3300 - 3800 - 4300
Blade projection	mm	95
Saw carriage variable speed (opt.)	m/min	0 - 120
Pusher variable speed (opt.)	m/min	0 - 70
Main blade motor (S6 - 40%) - 50hz	kW (Hp)	7,5 (9) (11)
Motor power with inverter	kW (Hp)	(11) (15) (18)
Scoring unit blade motor 50 Hz (S6 -40%) - 50hz	kW (Hp)	1,5 (2)
Main blade / scorer speed 50 Hz	g/min	4650/5850
Main blade / scorer blade diameter	mm	370/200
Standard clamps		5

OVERALL DIMENSIONS

	A	B	C
3300x1850	5391	4452	6530
3300x2200	5391	4452	7230
3800x1850	5891	4952	6530
3800x2200	5891	4952	7230
4300x2200	6391	5452	7230

REV. N. 01 - 04.2024

beam saws

gabbiani pt95
automatic horizontal beam saws

TECHNICAL FEATURES OVERVIEW

TECHNOLOGICAL ADVANTAGES

gabbiani pt95
automatic horizontal beam saws

Pressure beam

Maintenance-free thanks to the mechanical solution that involves the movement of the pressure beam on prismatic guides

Flexcut

Modular FLEXCUT system enables the processing of complex cutting patterns in very rapid cycle times. (opt.)

Rear led bar: continuous assistance during stack loading

An intelligent LED bar system guides the user during forklift loading of the stack for proper positioning, signals the need for stack change, signals, if present, removal of the pallet/support panel.

Blade carriage, power increases:

Solution that allows the application of power up to 18 kW (opt.)

Angular cutting device

Technical solution designed by SCM for execution of angular cuts (opt.)

Led bar:

continuous assistance during cutting
An intelligent LED bar system guides the user through the processing steps for intuitive and safe production monitoring

SAW-SET:

tool changing has never been so easy
In a few seconds the "SAW-SET" device carries out fast and precise tools adjustment due to the electronic setting, allowing an intuitive use of the machine and a productivity increase. (opt.)
